

1. Write a Python script that prints natural numbers from 1 to n using WHILE loop.

Sample Run

Input upper limit: 10

Natural numbers from 1 to 10: 1 2 3 4 5 6 7 8 9 10

2. Write a Python script that prints natural numbers in reverse order from n to 1 using WHILE loop.

Sample Run

Input upper limit: 7

Natural numbers from 10 to 1: 7 6 5 4 3 2 1

3. Write a Python script that prints all even numbers from 1 to n using WHILE loop.

Sample Run

Input upper limit: 7

Even numbers from 1 to 10: 2 4 6

4. Write a Python script that computes the sum of all natural numbers from 1 to n using WHILE loop.

Sample Run

Input upper limit: 7

Sum of natural numbers from 1 to 7: 28
